

Parental  
education

```
graph TD; PE([Parental education]) -.-> E([Education]); PE -.-> I((\$)); E --> I
```

The diagram illustrates a conceptual model with three nodes. At the top is a red dashed oval labeled 'Parental education'. Below it is a solid black oval labeled 'Education'. To the right of 'Education' is a solid black circle labeled with a dollar sign '\$'. A red dashed arrow points from 'Parental education' down to 'Education'. Another red dashed arrow points from 'Parental education' diagonally down and to the right to the '\$' node. A solid black arrow points from 'Education' horizontally to the right to the '\$' node.

Education
